

Free Global Classified Ad Submitter Manual From Coolmarketingsoftware.com

This is the manual for the Free Global Classified Ad Submitter Software that you may download here:

www.coolmarketingsoftware.com/freeglobalclassifiedadsubmitter

This software submits ads on autopilot to the classified ad site:

www.freeglobalclassifiedads.com

You need a Windows (Windows 7 or later) operating system to run this software. If you have a Mac you can run the software using your own Windows Remote VPS. [See here for more info.](#)

You do not need proxies or captcha services with this software.

Here is a video tutorial. The written tutorial follows:

1. First sign up for a free account [here](#).
2. You will be sent a confirmation email.
3. Click the link in the confirmation email.

Email: Input the email you used when you signed up for a free account with www.freeglobalclassifiedads.com

Password: Input your password for your [freeglobalclassifiedads.com](http://www.freeglobalclassifiedads.com) account.

Category: Go to <http://www.freeglobalclassifiedads.com/> and look for the EXACT name of the category you want to submit to. Write in the exact name of the category you want to submit to in the Category field.

This is **case sensitive**. So if the category is “Health” do not put “health”

Number of ads you want to submit: Put the number of ads you want to submit this session. The max number you can submit is 500 per run. The software will submit to random US cities each run. There are about 500 US cities in the database.

Title: Put your title or titles in this field. You can spin multiple titles using spintax. For example {Title 1| Title 2 | Title 3}

Every time the software submits it will randomly choose one of your titles in the spintax code above. You can spin as many titles as you wish.

Description: Put your description in this field. You can use html code if you wish. If you use html code check the check box saying that you are doing so.

You can also spin as many descriptions as you wish.

Keywords: Put your keywords separated by commas here.

Your Website Link: (Optional but recommended!) Put the url to your website here. Even if you do not use html code the software will make a nice clickable link in your ad asking people to visit your website.

YouTube Link: (Optional) Put the link to your YouTube video here and your YouTube video will be embedded into your ad. Viewers will be able to play your video right from your ad.

Your Facebook Page: (Optional)- Put the link to your Facebook page and the software will make a clickable link and a call to action asking people to visit your Facebook page.

Your Address: (Optional)- You can put your full mailing address here with

postal/zip code

City Area Name or Neighborhood (Optional) – You can put anything here to tell us about the area or neighborhood where you are located.

Currency: This is the currency your product or service uses. It defaults to US dollar but you also have the option of Euro and Pound.

Price: (Optional) Put the price of your product or service.

Images: (Optional) You can upload up to 7 images with your ad. Just choose and image on your hard drive by clicking the Choose file button.

Once you have inputted all your ad information just click run at the top left of the software. You can also pause the submission anytime by clicking the pause button. To re-start click run again.

To stop the submission completely click stop.

Note that the software will keep track of how many ads you submit at the top left of the software under “**Number of ads submitted:**” As the software submits you will see this number increase until it gets to the maximum number of ads you have indicated.
